

WHY PELICAN PICTURE FRAMING?

We are often asked where the name Pelican Picture Framing came from? Well the simple answer is from the pelican in our logo, which we adopted after a trip to Australia.

We took lots of photos during our visit and they included many photos of pelicans. The one used in the logo was taken at the waterfront in Hastings, located on the Mornington Peninsula in the State of Victoria. The largest city nearby is Melbourne.

We haven't seen too many pelicans in Northern Ireland and thought the business name might therefore be something that customers would remember.
